About Padmam Green

Padmam Green has emerged as a successful manufacturer of "C" purlins especially for Solar Module Mounting Structures. We manufacture C purlins onsite or at factory based on customer design to suite their requirements with holes and slots on web and flange. This widely helps to minimize the project timeline and eliminates field corrections.

With continued devotion towards research and development to achieve technological excellence, our company has earned an unrivalled reputation for quality and superior customer service. We also take pride in delivering quality products at an optimum price to our esteemed customers

C-Purlin Specification

WEB MM	FLANGE MM	LIP MM	THK MM	MATERIAL	GRADE MPA
40 TO 160	40 TO 60	11 TO 22	0.7 TO 1.6	GALVALUME ZINCALUME GI and GP	UPTO 550MPA

with holes and slots on Web and Flange.

Advantages

- ◆ Mobile Rollforming On-site Services
- ◆ Simplifies the Accountability with transparency in process and stages
- ◆ Assured product line supplies in line with installation needs
- ◆ As byproduct cost saving in avoiding Transport and other facilitations in the dispatch of finished Purlins to site
- ◆ Faster and Just in Time Delivery
- ◆ Inspection at site
- ◆ Reducing re-work costing and time
- ◆ Design Corrections on-site can be accommodated
